### Filing Description:

This filing updates the company's operational practice regarding the reordering of insurance scores. While the current filing language provides for the automatic reordering of insurance scores at five-year intervals, the company is implementing a pause on these automatic reorderings to minimize premium disruption within the existing book of business.

This change does not alter the underlying filed rating plan or the use of insurance scores. Agents will continue to have the ability to order or reorder insurance scores in accordance with the existing filed guidelines, including at new business or upon request within allowable timeframes at renewal.
