Filing Description:

Westchester Fire Insurance Company ("the Company") is submitting this inland marine new program filing to introduce the Pet Indemnity Insurance program.

This product will be different from traditional pet insurance due to its set payout amounts and only paying specific benefits (i.e., hospitalization, major surgery, physical therapy, major diagnostic tests, x-rays and ultrasounds, cancer, and end of life). The rates, factors, and rules were broadly developed based on company historical loss experience, but given how different this product will be, selections were made.
