With this filing Grange Insurance Company is notifying the Tennessee Department of Commerce & Insurance of the withdrawal, in its entirety, of the Personal Lines Miscellaneous Vehicle Program from the Tennessee market effective 6/1/2027.

The Miscellaneous Vehicle Program was originally designed to insure miscellaneous vehicles for full-account customers that presented an average to above-average risk profile.

The Miscellaneous Vehicle Program has been closed to new business since 2015 and has experienced substantial runoff. As of January 2026, there are 123 active policies and \$51,726 Total Written Premium remaining in force. This withdrawal applies to all forms, rates, and manual rules filed in connection with the program, including the original filing and any subsequent amendments.

All policies currently written under the Miscellaneous Vehicle Program will be non-renewed at their individual policy expiration dates, beginning with policies scheduled to renew on or after 6/1/2026. All policy terms and claims handling practices will continue to be honored in accordance with the provisions of each issued policy. Each affected policyholder will receive a notice of non-renewal in compliance with TCA § 56-7-1304. The non-renewal process will be completed for all remaining policies by 5/31/2027.

A copy of the non-renewal notice is included with this filing.

Please note, Grange Insurance Company does not plan to withdraw its certificate of authority for Auto. The Grange Insurance Company will continue to insure Private Passenger Automobile insurance policies in Tennessee.
