P50 - Partnership Discount

~~A partnership discount will apply to a policy affiliated with a Lemonade partner. A discount is applied to policies at new business, and a customer and/or policy can only qualify for one discount.~~

A partnership discount will apply to a policy affiliated with a Lemonade Affinity Group. An Affinity Group is defined as a partnership with an active written contractual agreement between Lemonade and another business entity entitling the Affinity Group's members/employees to a discount. A discount applies if a primary named insured is a customer/member of an Affinity Group as outlined in the rates and rules manual.

A discount is applied to policies at new business, and a customer and/or policy can only qualify for one partnership discount. Additionally, a customer is only eligible to receive either the multi-policy discount or the partnership discount. Lemonade will apply the discount that is most beneficial to the customer.
