The lengthy lead time between the date of this filing and the company's proposed implementations date is due to programming considerations. Fire Insurance Exchange will be used for our exclusive agent channel and 21st Century North America Insurance Company will be used for our direct channel. The Reciprocal Provisions Endorsement only applies to Fire Insurance Exchange and is not applicable to 21st Century North America Insurance Company.

We previously submitted filing FAIG-134942619 for our independent agent and group/affiliated channels. The forms in that filing are substantively identical to those included here, with differences attributable to the use of a different policy administration system and minor layout variations on the Declarations Page and Uninsured Motorist Waiver.

In support of this filing please find copies of the noted forms listed above.

We appreciate your prompt review of this filing. If you have any questions regarding this filing, please let us know.
