

Professional Solutions Insurance Company
Equine Mortality Program

Filing Memo – Forms/Rates/Rules

We are submitting this filing to introduce our new Equine Mortality program, filed under the Inland Marine line of business. This program provides a wide range of protection for equine owners including optional coverage for certain medical expenses. Insureds are primarily commercial enterprises.

Forms

The Equine Mortality program will utilize the independent forms included in this filing.

Rate/Rules

The proposed rates for the Equine Mortality program are based on rates from different companies: Great American, Berkley (StarNet), HDI, Core Specialty, and Bascule (Accelerant). Some or all of these companies have filed their own equine program in this jurisdiction.

Since this is a new program, the estimated rate impact is 0.0%.
